MEMORANDUM FOR: Project Director

SUBJECT : Follow-up on [] Trip Report
[] 15 October 1957)

25X1
25X1

REFERENCE : SAPC-19962, 22 October 1957

1. In paragraph 3 of the referenced memorandum you suggest General Balmer being cleared for T material and that which is relevant to his mission being made available immediately. I am arranging for General Balmer's T clearance and setting in motion, in cooperation with DD/P and OGI, arrangements for prompt transmittal of reports based on T material or raw material itself as required.

2. In regard to your paragraph 4 bearing upon the unhappiness of General Kuter and Colonel Hull, let me say that I have discussed this matter with Colonel Macia informally and emphasized to him that under our existing arrangements and at their wish we are depending upon AFCIN to see to their needs. A T center does exist at FEAF, and Colonel Macia informed me that they were alert to serving General Kuter as required. Already a mission coverage summary when relevant is made available to FEAF so they may order selected materials.

3. Reference your paragraph 5 dealing with confusion surrounding the status [] I have discussed this at length with Colonel Macia, and he has assured me that he is taking action to clarify this matter in the field. No further action by CIA on this matter is required at this time.
